

I don't want to lose K-LOVE radio. They broadcast in our city with a clear signal in every part of town. We have no local station as enjoyable. If displaced we would be left with a station playing old music I would never listen too. K-LOVE music reaches kids that need direction. Without this station we would be forced to listen to a station whose target audience is 50+ years of age (or it would seem to me). K-LOVE provides a means spreading love not hate. Please don't take my radio station.
